

LABEL ARTWORK SPECIFICATIONS

1. Acceptable digital file formats for 1, 2, 3 & 4 color labels:

- Photoshop TIF
- Photoshop EPS
- Illustrator EPS (fonts must be converted to outlines).
Converting text to outlines or paths reduces the chance of misinterpreting text when converting your file for use from our print applications.
- Acrobat PDF (must be 300 DPI and saved with fonts embedded)

2. All images must be at least 300DPI in resolution.

3. All 4 color images must be CMYK.

4. Art submitted on disc requires full color printout.

5. Acceptable camera ready art for 1 color ink & 1 color paper

- Only artwork 100% to size will be considered “camera ready”
- All copy (text) should be no less than 1/6” (.032) inside the die cut (including borders)
- All bleeds must extend 1/8” (.125) outside of the die cut
- Need quality printout of artwork

6. Artwork Size Specifications:

- 7” labels: 3.875 with bleed, 3.625 without bleed
- 12” labels: 4.25 with bleed, 3.937 without bleed

7. Artwork submission:

- Artwork may be submitted on a CD-ROM or with a print out and attached with your order.
- Templates - *(see page 2 & 3 for sample PDF templates).*

NOTE: A 10” record can use a 7” or 12” template

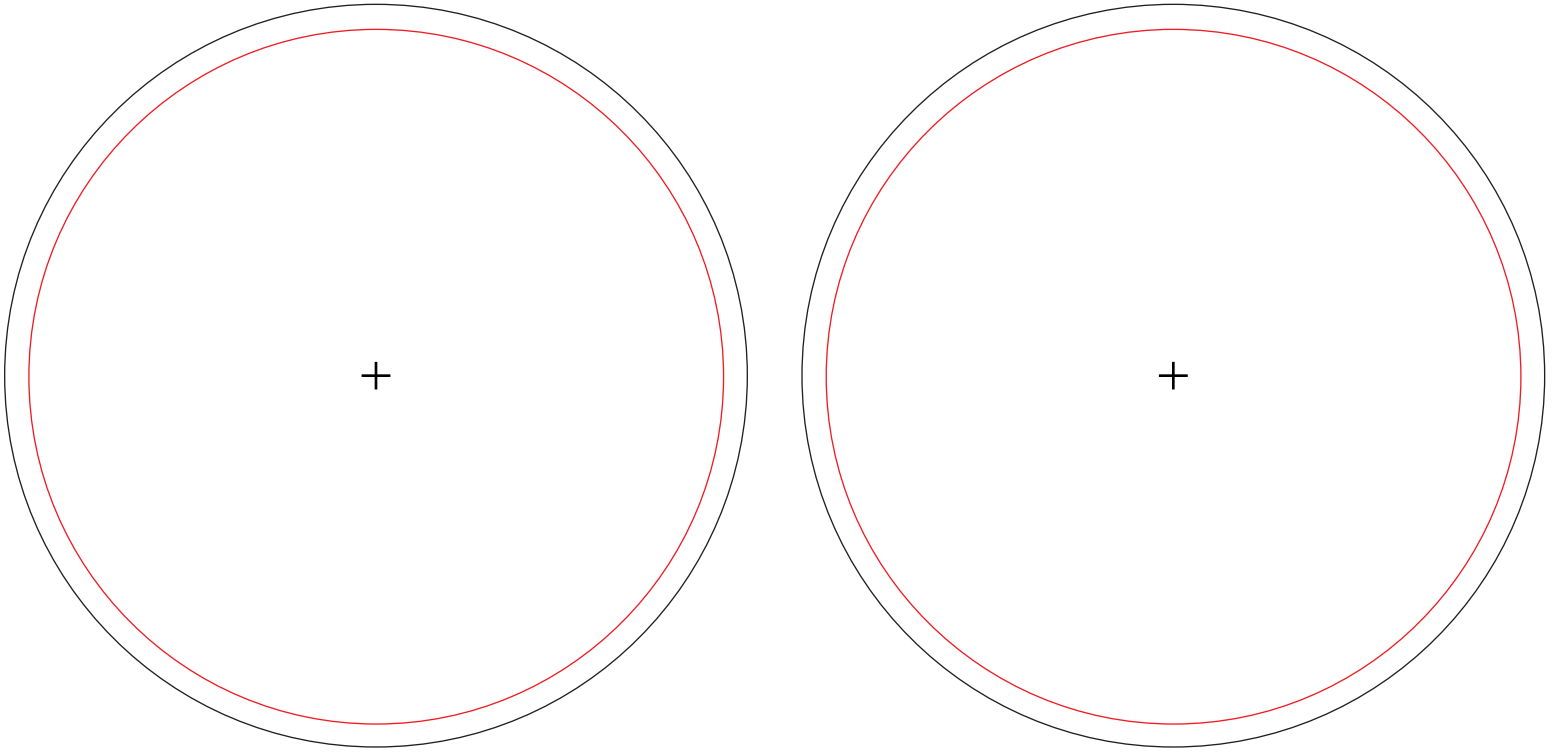

Charges will be incurred if artwork is not presented per our specifications

Costs beyond standard pricing

- Add bleed 1/8” (.125) beyond die cut: \$25.00
- Add barcode: \$25.00
- Typesetting service: \$25.00
- PDF proof: \$25.00
- PMS colors: \$30.00 per color
- Editing services: \$50
